Period: January 25, 2021 ~ undecided

# WARNING

January 25, 2021

※Please wear a mask in the hospital

**① Visiting in-patients is prohibited (Entering the hospital wards is prohibited except staff.)**

In case of necessity, you should arrange your schedule with the person in charge of the hospital ward in advance.

Visitors are allowed to see inpatients within 15 minutes and one or two people at one time during visiting hours(from 2:00 p.m. to 8:00 p.m.).

Children under fifteen are not allowed to visit.

We will ask you your body temperature, physical conditions and travel records.

Please leave the hospital right after finishing your consultation and visiting.

**② Travel Advisories 14days before hospitalization and consultation.**

We ask patients and their families to prevent infection thoroughly, such as avoiding meeting people from overseas and mainland Japan. Also, we kindly ask you not to have meals and meetings in large groups.

Please refrain from nonessential and non-urgent outings.

**③ Inpatients are not allowed to go out and stay overnight.**

**④ Patients are allowed to bring two people or less for their consultation and hospitalization.**

Please avoid the three C's: crowds, closed spaces, and close-contact.

Thank you for your understanding and cooperation.

Director of Hospital
